

Fred NUHQ is a head office software solution written specifically for pharmacy. It is integrated with Microsoft Dynamics Retail Management System Store Operations point of sale.

Now you can manage your pharmacy securely and easily from wherever you have an Internet connection with **Fred NUHQ** head office software.

Perfect for pharmacies that want to view and manage data between stores, **Fred NUHQ** uploads your point of sale data to one fully secure central web location.

MANAGE YOUR PHARMACY FROM ANYWHERE

You can even update prices and stock information from home and know that the changes will apply as soon as your staff log on.

You can also share data with anybody you trust – other stores, your pharmacy group, accountants or financial advisors – and can view it as a group or by individual pharmacy with powerful reports for business decision making.

FEATURES

- Access is in your hands – you decide who can access Fred NUHQ and what data they can see, right down to report level
- Fully secure, with server and site based security certificates
- Fix stock supplies quickly and easily - requests will appear in your point of sale back office without re-keying.
- Manage data across groups with centralised Loyalty Schemes and Debtor control
- Handles data transfer for loyalty clubs, customer accounts and other specific data capture with ease
- Forwards data to any legacy or ERP corporate system using the latest XML file transfer
- Uses the AppCAT industry catalogue to minimise product data mismatching

- Scheduled reporting feature. Fred NUHQ sends your required store reports to your email address
- Use PharmX industry wide ordering and supply gateway
