

Fred Office is new management software that provides an easy to use and powerful approach to running a pharmacy.

Fred Office allows you to quickly see how your business is operating. It brings all of your dispense, POS and other systems into one package that looks and works just like Microsoft Outlook.

RUN YOUR PHARMACY WITH EASE

You can search, view, analyse and maintain all of your data information and systems from a single Fred Office console, including inventory management, customer accounts, and enhanced electronic ordering.

Fred Office includes inventory features that allow you to more accurately gauge your stock needs, helping your customers to find what they are looking for when they need it.

FEATURES

- Advanced new inventory features such as dynamic rate of usage allow you to very accurately control the stock you have on shelves
- Gain a complete view of your business at a glance as you open multiple windows showing your point of sale, customer records, inventory, and more
- New "smart client technology" does not require a constant Internet connection
- Automatically connects to web services such as AppCAT Master Item Catalogue, Fred EFTPOS and the PharmX Ordering Gateway
- Task and calendar reminders, Dashboards and automatic email capabilities allow you to have the right information where you need it, when you need it
- Incorporates Fred Mobility, the latest mobility solution from Fred Health, to further increase efficiencies and afford easier control of inventory whilst on the move!
